Some of those articles Dinuka linked in the deck.  
Twitter verse doesn't like hearing about another \$1bn xrp on coil either  
It's the same narrative about us 'dumping' xrp on the market

+ Monica

team,

I will not be on the call this morning - but I'm curious (in light of what appears to me to be an increasingly level of FUD and generally false narratives about Ripple and XRP) whether this group has done (or can do) some brainstorming about whether we should proactively correct the record on critical points that seem to be persisting. I would assert that our silence isn't good for anyone in the XRP ecosystem.

Best,  
Brad

Hello all,

Please find the attached deck for this week's market update.

Cheers,

Dinuka
